SELECTED CLIENTS

- Uttar Pradesh Police
- Delhi Police
- Central Bureau of Investigation
- Telangana Police
- Madhya Pradesh Police
- Haryana Police
- Uttarakhand Police

Five products — all live, all built and supported by our own team.

DRISHTI

Police command & investigation platform

• LIVE · Delhi Police

DIGITAL MALKHANA

Evidence & case property with QR and chain of custody

• LIVE · Telangana · UP

SIT CASE MANAGEMENT

Insurance-claim fraud investigation

• LIVE · UP Police SIT

CITIZEN COMPLAINTS

Help desk linked to the state grievance portal

• LIVE · Uttar Pradesh

VPN & CYBERSHIELD

In-house secure access and security tooling

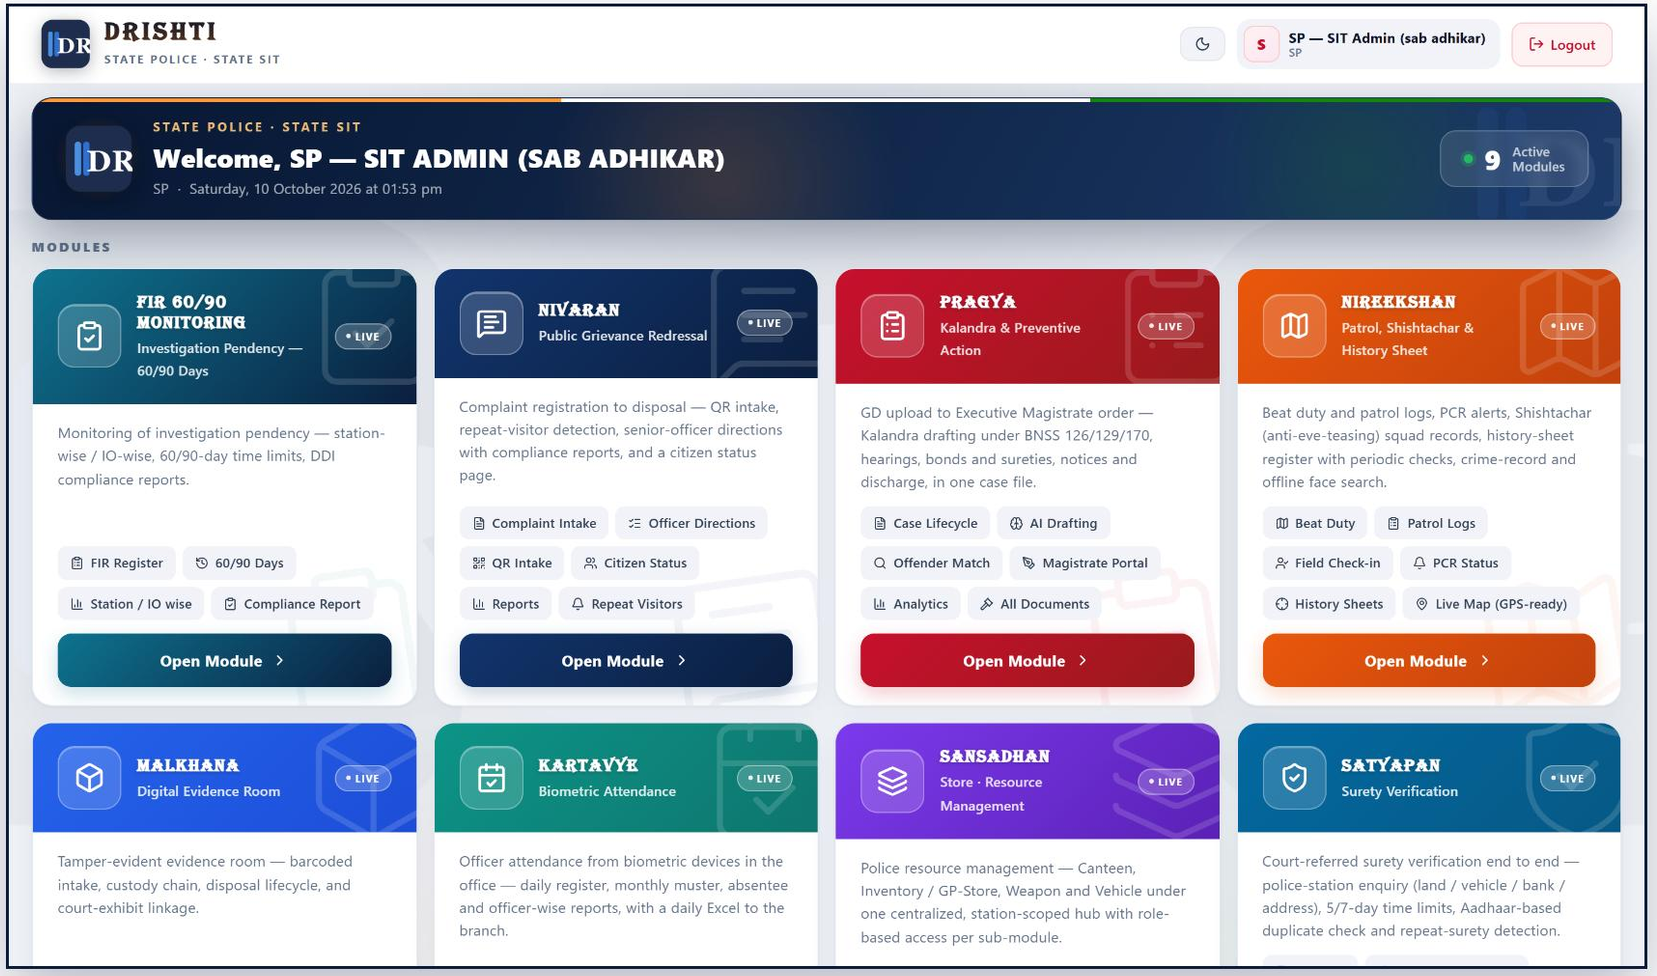

• LIVE · In-house

LIVE, NOT PROTOTYPES Every product here is in daily use by government users — each can be delivered on its own.

05 DRISHTI

FLAGSHIP

Police command & investigation platform — running daily in Delhi Police, Outer North District.

DRISHTI module hub · specimen data

● LIVE IN PRODUCTION

National Systems

Integrated with CCTNS, ICJS, e-Sakshya and e-Prison.

Deadline Alerts

60 / 90-day charge-sheet alerts for every investigator.

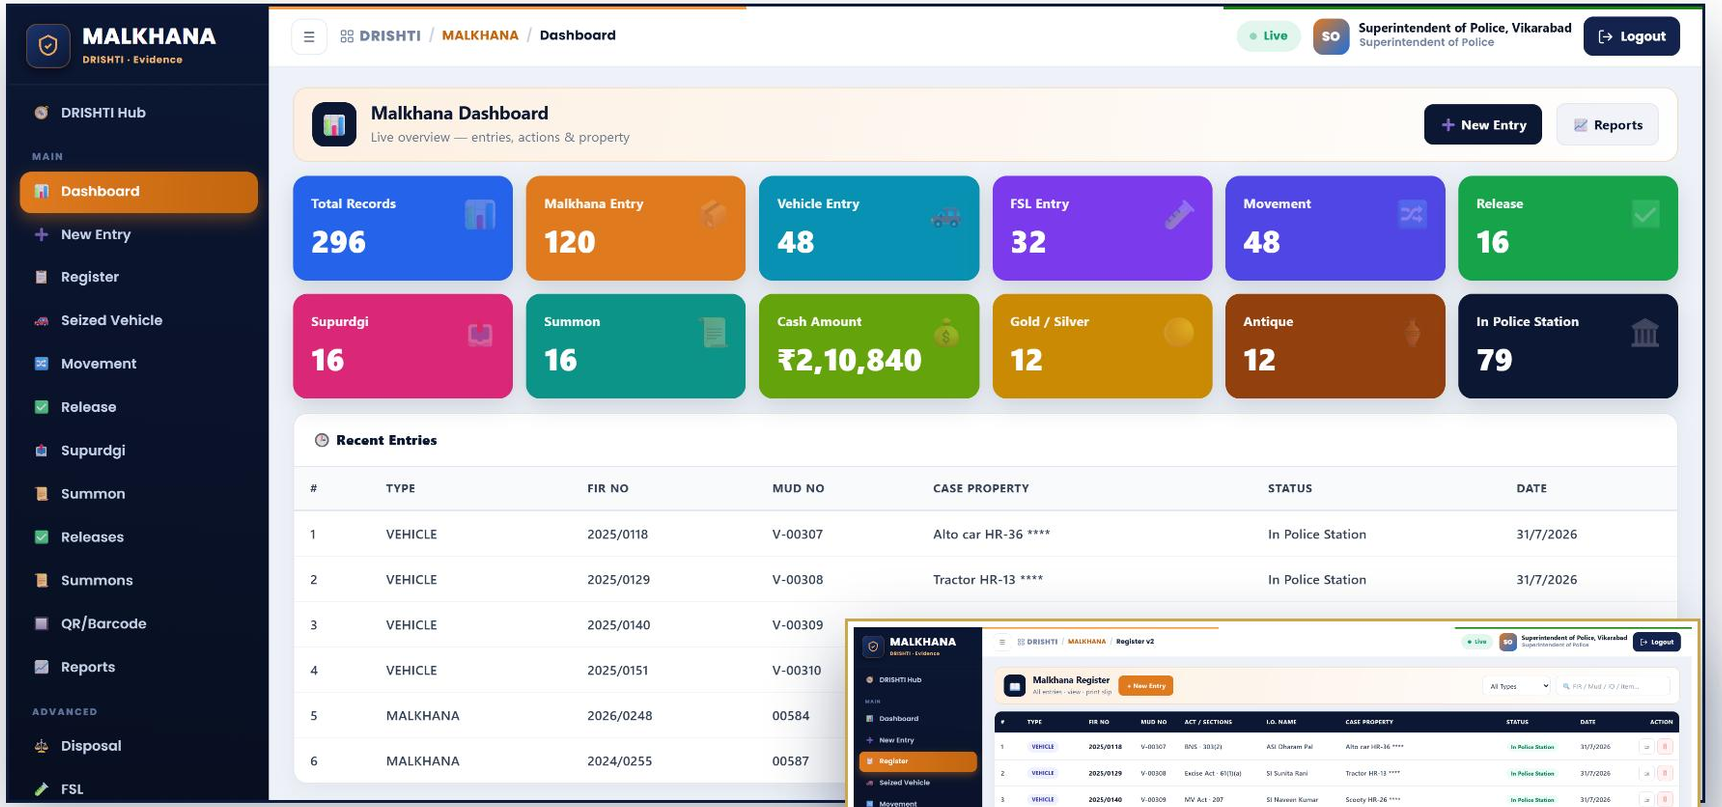

Medha AI

On-premise AI assistant for investigators; daily role-wise WhatsApp reports.

More Modules

Talash vehicle search · Kartavya biometric attendance · Nivaran complaints.

Every piece of case property — tagged, tracked and accounted for until disposal.

Malkhana dashboard and register · demonstration data

● LIVE IN PRODUCTION

QR on Every Item

Each article and packet carries its own QR label.

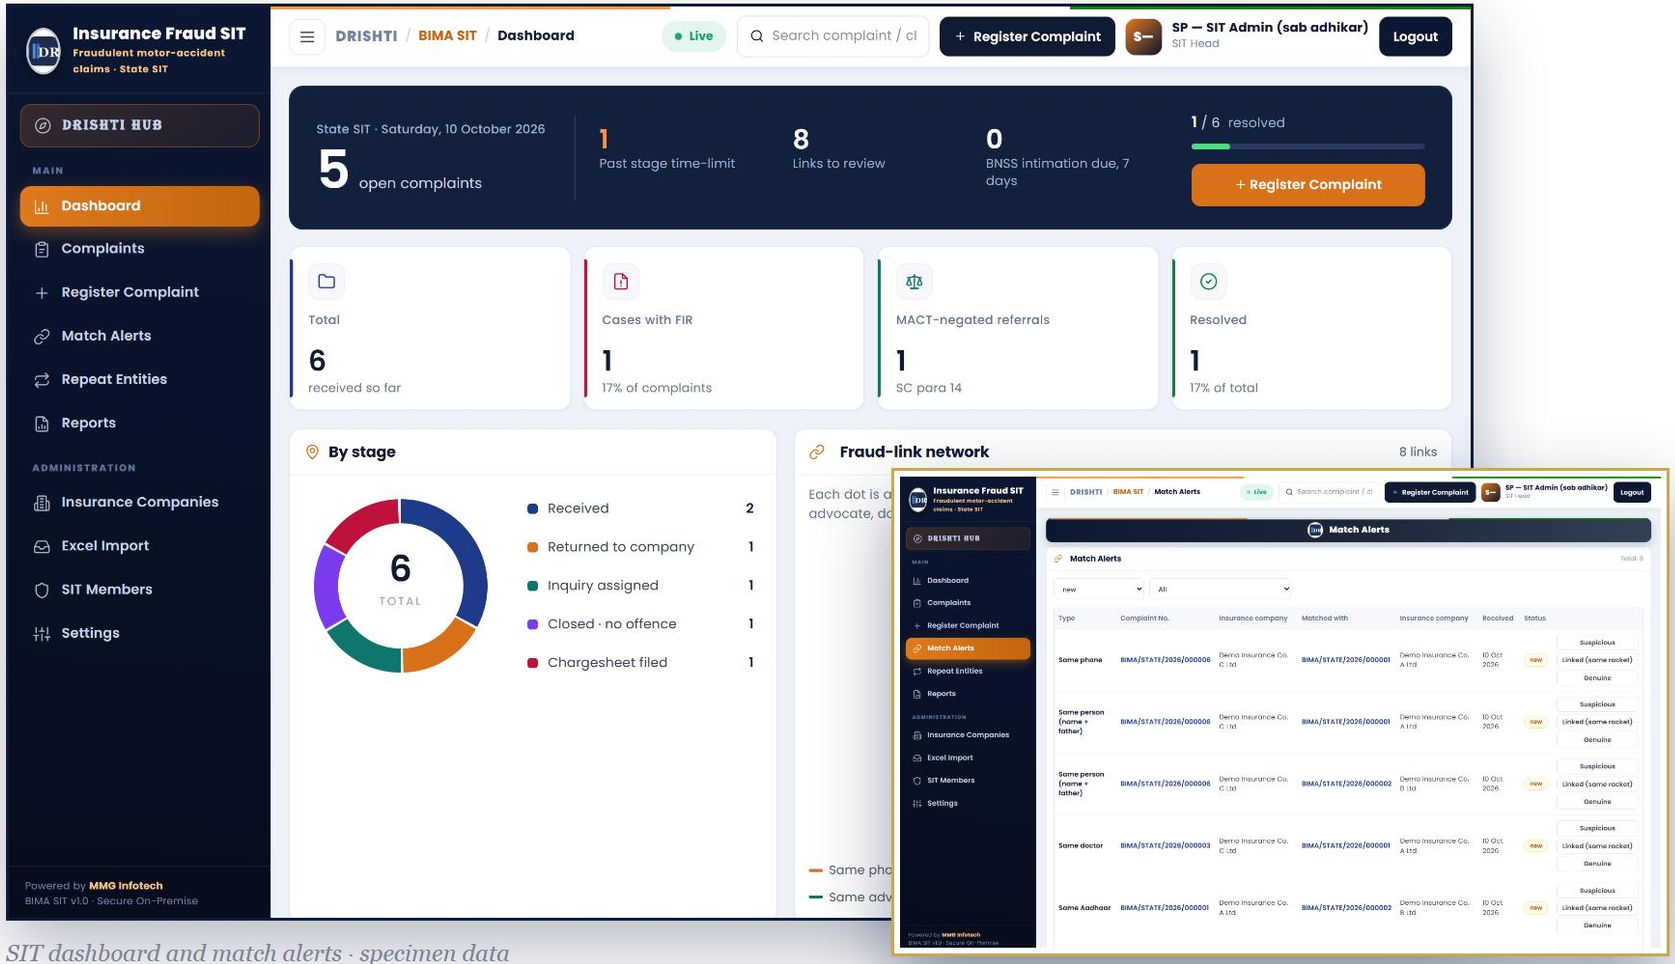

Chain of Custody

Court, forensic lab, release and disposal — every step dated.

Live Deployments

Telangana: CCS Hyderabad + Vikarabad pilot. Many UP districts.

Software for the Special Investigation Team on fraudulent insurance claims.

SIT dashboard and match alerts · specimen data

● LIVE IN PRODUCTION

Live in Uttar Pradesh

Running with the UP Police SIT, Lucknow.

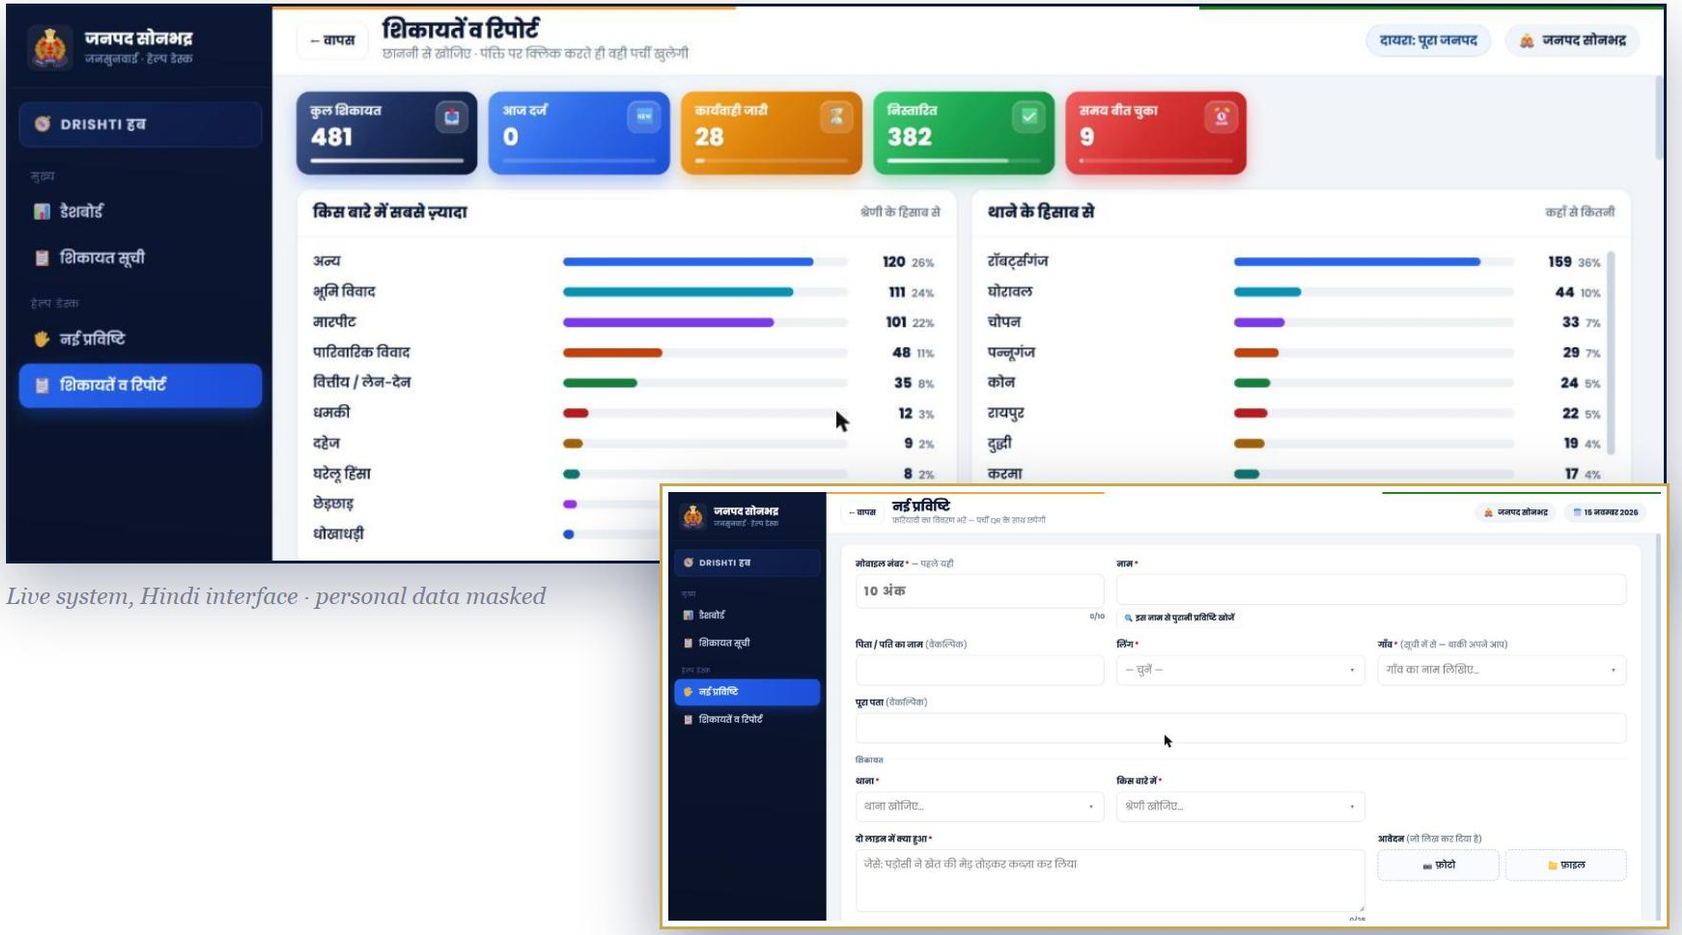

Fraud Network

Same phone, person, doctor or lawyer across claims is linked automatically.

Match Alerts

Investigators confirm each link as suspicious, linked or genuine.

A public help desk linked to the state grievance portal — from first visit to final disposal.

Live system, Hindi interface · personal data masked

• LIVE IN PRODUCTION

Linked to State Portal

Works alongside the Uttar Pradesh grievance portal.

Help Desk Entry

Complaint registered at the counter; a QR slip is printed for the citizen.

Officer Dashboards

Category-wise and office-wise status, overdue cases flagged.

Any Language

Shown in Hindi; English and regional languages supported.

End-to-end delivery — design, development, deployment, training and support.

GOVERNMENT PORTALS

Web portals and citizen services

CASE & WORKFLOW

Case files, approvals, deadlines

MOBILE APPS

Android and iOS

DASHBOARDS & ANALYTICS

Live status for every level

ARTIFICIAL INTELLIGENCE

On-premise LLM assistant and search

INTEGRATIONS

National systems and APIs

SECURITY

2FA, encryption, audit by default

MULTILINGUAL

English, Hindi, regional-ready

OUR PRINCIPLE

POLICE-GRADE SECURITY IS THE DEFAULT — NOT AN OPTION.

Our systems hold evidence, investigations and citizen records. Every product ships with the same security controls, switched on from day one.

2FA FOR EVERY USER

Time-based one-time passwords (TOTP) on every login.

AES-256 ENCRYPTION

Personal data encrypted at rest.

ROLE-BASED ACCESS

Each officer sees only what the role allows.

FULL AUDIT LOG

Every action recorded — who, what, when.

ON-PREMISE OR CLOUD

Deployed on the client's own servers when required.

CLIENT OWNS THE DATA

Data stays with the client; nothing leaves without consent.

Five reasons partners choose MMG.

01	BUILT FOR GOVERNMENT	Government and police are our only customers. We know their workflows, laws and approval chains.
02	LIVE, NOT PROTOTYPES	Every product shown here runs in daily operation with real users.
03	DATA STAYS WITH THE CLIENT	On-premise deployment available; the client keeps full control of its data.
04	MADE IN INDIA, COST-COMPETITIVE	Enterprise quality at Indian engineering cost.
05	FAST DELIVERY	A product base already built — new deployments start from working software.

Flexible models for international partners — we fit around your bid.

MODEL 01

TECHNOLOGY PARTNER

Subcontractor to a local prime bidder — we deliver the software, you lead the contract.

01

MODEL 02

DEVELOPMENT PARTNER

We build modules and apps under your brand.

02

MODEL 03

JOINT BIDS

Together on World Bank, UN and donor-funded tenders.

03

MODEL 04

INDIA & SOUTH ASIA

We represent and support your products in our region.

04

All roles, scope and commercial terms agreed **in writing** before work begins.

LET'S BUILD TOGETHER

Your Technology Partner from India

We welcome a call to discuss your next government or donor-funded programme — and can show every product live.
